“Franco Gränsen” 10 kopek with due note 30 öre

*Did you know?*

For mail between Sweden and Finland, the sender of a letter could choose to pay the full postage or the postage to the border only (“Franco Gränsen”). The receiver had to pay the remaining postage for the letter. The postage from Sweden was originally 20 Sk. Bco and from 1.7 1858 it became 60 öre; from Finland it was 20 kopek. The “Franco Gränsen” rate was half of this. These letters usually have a cancellation “FRANCO GRÄNSEN” or a written notation, together with a due note, stating what the receiver

should pay. The option for partly paid letters ended in 1868.

Letters sent partly paid from Sweden to Finland are quite common but the ones sent from Finland to Sweden are much scarcer. There are probably less than ten such covers with Oval Type in existence.

## Preface

We are sure you have heard the phrase “time flies” many times before, but we think it is a nice and always useful expression. Please note that we use it in a positive way. It is always very interesting and exciting to work with a new auction as they are all different, and this one is not an exception. Of course, we are especially happy for the reduced restrictions and that we are once again able to arrange viewings in Stockholm & Copenhagen.

A good example of a new and exciting opportunity that can arise is the special auction “The People’s Republic of China”, which was entrusted us shortly before closing time. It is presented in a small, but very interesting and colourful separate catalogue. Very few modern areas can boast of such a high demand and so many valuable and sought-after items. The highlight is of course the iconic “The Whole Country is Red”!

Another remarkable happening this time is the sections from “90 Years of Collecting” consisting mainly of classic items from the Nordic countries Denmark, Finland, Norway & Sweden. The well-known collector and exhibitor Warren Grosjean started to collect stamps already at the age of seven, and now nearly a century later his holding is up for sale; we are thankful and proud of the trust he has placed in us! Please read the introduction as well as his own life story on pages 78-83.

In these days, genuine new “finds” are very unusual, therefore we are also very happy to present a newly discovered correspondence. We are talking about more than 120 covers, mainly from Finland to Sweden, from the 1870s and 1880s. A nice discovery to the delight of our hobby.

In addition to the above-mentioned highlights we offer as usual a wide range of high-quality single items as well as collections and lots from countries all around the world. Please take a look at “your” field and we are sure that you will find something of interest.

There is a lot of speculation on whether the great demand and the very strong market in our business will continue this autumn. Will the “new old” collectors stay interested, or will they put the stamp albums back into the wardrobe? Time will tell...

For safety’s sake, we still appreciate if you announce your visit beforehand for viewing as well as to the auction. Regardless – you are warmly welcome to both!

## “Postiljonen Horses”

Postiljonen has always emphasized the advantages and the importance of collecting philatelic items of the highest quality. We think this is an important step for the development of modern collecting.

To highlight, and to a certain degree reward what we think is interesting, fun, beautiful and high quality philately, we are choosing a number of items in our auction catalogues and present them with Postiljonen emblems. It should be specially noted that it is not a complete classification, you will surely find other items that would well deserve extra attention.

This choice of excellence is a subjective opinion, even if done with professional as well as philatelic skill and experience. It reflects also the emotional influence of an individual eye.

An item of outstanding quality and beauty. A rarity for its appearance and not necessarily for its value. Suitable in any collection for private enjoyment as well as for exhibition.

An item of highest excellence in regard to quality, beauty and rarity. A wonderful addition to any collection in its area.

## *Viewing and Auction During the Pandemic*

When finalizing this auction catalogue, the Covid-19 situation in our region was stable and “under control” with fewer restrictions than earlier this year. But changes can occur very quickly and we will inform our clients by email and at our website about any important news.

Our highest priority is to ensure the safety of our customers and employees and therefore we are following the Swedish Public Health Department’s mandates regarding precautionary measures to stop spreading the virus. This includes **special routines for hygiene, traveling and social contacts**.

- **Flexible viewing dates, at any time until the auction.** If you would like to visit us and view the auction lots before the official viewing dates, please contact us and we will do our best to accommodate this.
- **Viewing and auction.** You are most welcome to visit us, but please notify us in advance. Then we can estimate the number of visitors during the week.

## *Visning och auktion under pandemin*

Vid tidpunkten för färdigställandet av denna auktionskatalog så var covid-19-situationen i vår region stabil och ”under kontroll” med färre restriktioner än tidigare i år. Men förändringar kan ske väldigt snabbt och vi kommer att meddela våra kunder per email och på vår hemsida om eventuella nyheter.

Vår högsta prioritering är att säkra våra kunders och medarbetares hälsa, därför följer vi den svenska Folkhälsomyndighetens uppmaningar angående åtgärder för att minska spridningen av viruset. Detta inkluderar **speciella rutiner kring hygien, resor och sociala kontakter**.

- **Vi kommer att vara flexibla med extravisning.** Om du vill komma på visning före de officiella visningsdagarna så vänligen kontakta oss, vi kommer att göra vårt bästa för att tillgodose detta.
- **Visning och auktion.** Du är välkommen att besöka oss, men vänligen meddela oss i förväg. Då kan vi bättre uppskatta antalet besökare under veckan.

## **Extra scans on the web!**

For every auction we publish thousands of extra scans on our website [www.postiljonen.com](http://www.postiljonen.com) including more or less all certificates of single items and a very large number of collections and lots are scanned in their entirety, further many others with selected pages/scans.

In most cases these lots are marked with a picture of a camera 📷 in front of the lot #. However, sometimes there may also be scans of lots that do not bear the sign. Please check our website for updates.

### **More scans at cost**

We often get requests for additional scans and sometimes in higher resolutions, sometimes for research or documentation purposes.

Due to time restrictions and limited availability of the lots due to ongoing viewings, we must restrict this service of making further scans on individual requests. In the cases time allows us to supply more scans we will charge for the costs of **€ 10 for each request (maximum 10 scans or photos)**

If more than 10 scans are requested, € 1 per scan will be added. **Must be paid beforehand by credit card, please go to “Payments” on our website.**

Please have a look at:

**[www.postiljonen.com](http://www.postiljonen.com)**

## Mail Bidders!

We always endeavour to simulate the actual auction situation for our mail bidders, you must however beforehand have determined the maximum you wish to pay for each lot and we will ensure that this maximum is not exceeded. Your bids must be in Euro and divisible by 10. The bidding always starts with the second highest mail bid plus the next increase (see conditions of sale sect. 2). The bidding then continues between the bidders in the audience and the highest mail bidder.

Avoid missing out on every item you wanted because of higher bids from others by bidding on many items but limit your total purchase to an amount of your choice (see bid form "my total purchase must not exceed:...excl. commission"). You can for example bid for a sum of € 10 000 but limit your total purchase to € 1 000 or any amount you wish.

You can also bid on two or several items and add "or" in between. We will then make sure that you get only one of these items.

Further, according to your instructions we can for example also raise your bid on one item if it turns out that you got another item less expensive than your highest bid.

Should there be two or more equal mail bids then the first bid received will buy the lot, so please submit your bids as early as possible.

**To ensure you a safe handling of your bids, we need them at least 24 hours before the auction starts.**

- 114 ☒ WWI CORRESPONDENCE. Very interesting collection of cards and letters sent from Eugen Eppler who volunteered to fight for Germany at the east front, to his wife Gerda in Malmö 1914-1919. In 1917 Eppler was captured and placed in Russian POW camp (interesting card sent from "HAMBURG 1.10 17" with information that Eppler is missing and possibly became prisoner of war), and several cards were sent from this camp both to his wife but also to his relatives in Germany. Eppler survived the camp and came back to Sweden where he and Gerda lived until 1967 and 1970. The collection contains around 70 cards and several letter sheets mostly written in German but also some in Swedish. A few cards with Swedish postage due. Also an interesting unused picture postcard where the Tsar is handing out an easter egg to a soldier, probably brought back by Eppler. More information as well as pictures can be viewed on our website.

## Extra scans on the web!

For every auction we publish thousands of extra scans on our website [www.postiljonen.com](http://www.postiljonen.com) including more or less all certificates of single items and a very large number of collections and lots are scanned in their entirety, further many others with selected pages/scans.

In most cases these lots are marked with a picture of a camera 📷 in front of the lot #. However, sometimes there may also be scans of lots that do not bear the sign. Please check our website for updates.

### More scans at cost

We often get requests for additional scans and sometimes in higher resolutions, sometimes for research or documentation purposes.

Due to time restrictions and limited availability of the lots due to ongoing viewings, we must restrict this service of making further scans on individual requests. In the cases time allows us to supply more scans we will charge for the costs of **€ 10 for each request (maximum 10 scans or photos)**

If more than 10 scans are requested, € 1 per scan will be added. **Must be paid beforehand by credit card, please go to "Payments" on our website.**

Already in the late 1920s, almost 100 years ago, the seven-year-old Warren started to collect stamps. Never could he imagine, at the time, that it would be a hobby he would embrace for 90 years to come!

He led an exciting and successful life including two years' service in in the U.S. Navy 1944-45. In 1946 he graduated as an engineer from Massachusetts Institute of Technology. He started his own consulting business in 1955 followed by a manufacturing operation with proprietary products, shown on the websites – [Derma-safe.com](http://Derma-safe.com) and [Lakebottomblanket.com](http://Lakebottomblanket.com). These operations and management he later handed over to his son Paul.

As a traditional collector and exhibitor, Warren has for the classic period in all his areas, and especially for the first issues, emphasized printings and colour shades. In most cases, he has been able to present and show them all, often used as well as unused. Besides, he has presented a wide range of covers including destinations and other specialties.

Please, read Warren's own story on the following pages.

# My Personal History

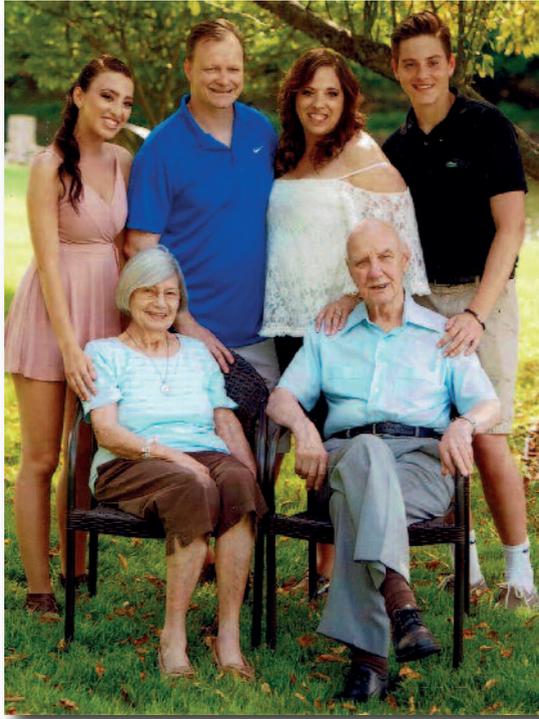

My father was a shipping broker with headquarters in lower Manhattan and an office in Paris. By chance my Dad was on a train leaving Poland for Paris on 1 September 1939 - the day the Germans invaded Poland. On 10 May 1940 the Germans attacked the Low Countries, bypassing the French fortifications along the Rhine River on their way to Paris, which the Germans occupied on 14 June 1940. France capitulated on 22 June 1940. My Dad's European business was largely gone. But he did get a contract with a Portuguese shipping company to act as their US agent.

I was born on Staten Island - the southern-most part of New York State. We lived in a family compound surrounded by family and close friends located about 300 yards from the Richmond County Yacht Club, located on a bay called the South Shore. I was a member of Boy Scout troop #41. I was selected to attend the Empire Boy's State in Syracuse, NY. I was a member of Arista (the honor society), various other teams and leader of the Collegiate Party. The summers were spent on a friend's farm in Canada. I graduated

from Tottenville High School in June 1940 at the top of my class in mathematics. My goal was to attend the West Point Military Academy but we messed up and I missed the test. I applied to Massachusetts Institute of Technology (M.I.T.) and I was accepted.

Now the only problem was the tuition cost. About this time Dad was informed that a ship loaded with Jewish refugees had left Portugal and was headed for New York and he was expected to see that the "cargo" was unloaded safely. This was highly illegal. Only two of Dad's associates knew the situation - Bill Oberlander (Dad's business partner) and their Lawyer - Sam Amster. They were assured that they would be adequately rewarded. The ship was brought into New York Harbor at midnight and docked at a Brooklyn cargo dock. Long before dawn the human "cargo" was offloaded and all was quiet. That evening Dad came home and pulled out a handful of \$100 bills saying "Here is your college tuition!" But there was more to it than the tuition payment. Federal Agents were after him. Dad bought a farm in Vermont, changed his name to Arty, and moved the family to the farm. Sam Amster closed his business and moved to Texas. Bill Oberlander stayed in New York and had a tough time with the Federal Agents. I have tried to guess how much money changed hands - at least \$100,000; with 25% going to the primary enablers and the rest divided amongst secondary people such as guards, pilots, and miscellaneous suppliers. I have no idea how many refugees were saved with 1,000 being a low number.

*Family picture*

My folks needed help. After graduating I worked on the family farm on a variety of projects including the buying of a second-hand crawler tractor and equipping it as a bull-dozer, building a machine workshop, repairing of one of the barns and equipping it as a chicken coop. At the same time, the hay, corn, bean and oat crops had to be harvested and the wood for heating the house in the winter had to be cut, split and stacked. In late fall, I took a job with a gas service company in New Hampshire. It lasted two years but it was cold in the winter. In 1948, I took a job at the G.E. Clock and Timer Department in Ashland, MA as an engineer, eventually becoming "Supervisor of Quality Control". In 1958 I was the Chairman of the American Society for Quality Control (ASQC) National Convention held in Boston – a big job!

From 1959 through 1974 I held a variety of Quality Control management positions in various companies – the major one being Schick Safety Razor Co. later merging into Warner Lambert from which I retired in 1975 to start consulting with Jan Dawidowicz, the former head of Schick engineering. After a very challenging several weeks in India, upon returning to the US, Jan had a heart attack and died. UGH Jan was my partner and friend! We were involved in a project that required the building of equipment for which I was not qualified; so I enlisted the help of the man who had run the Schick tool room – Karl Judt. He was a great help and we did the job. But that was the end of that period.

# My Hobbies: Skiing, Sailing and Stamp Collecting

My skiing started probably about age seven when we skied and rode sleds down the hill belonging to Grandma Metcalf on Hillside Terrace in Great Kills. The skis were simple wooden slats held to our feet with leather straps. There was no turning – just going straight ahead. When I was about 12, Jack Hammel and I took a bus with our new Christmas skis to a ski hill named West Point. We skied there for as long as we could – again going straight down the hill because we had no idea how to turn - and walking back up carrying our skis on our shoulders. I really did not learn to ski until I went to college and found a left-over pair of skis in the basement of the fraternity – finally with good bindings. Later, I

bought army surplus skis with good bindings, I was on my way. Since then I have purchased good skis and skied on many trails in the US, Switzerland and even Austria. I ski fast and straight with minimal checking. I won a gold medal when skiing at age 82 in a race for amateurs in the 80 to 85 age group. The sailing began when Frank Hammel (the father of my best friend, Jack) needed a crew for his racing of his 18 foot sail boat. Jack and I spent many a Sunday helping Frank Hammel. Over the years Frank let Jack and I sail his boat whenever and wherever we wanted. I learned to love sailing and the lessons learned stayed with me all of my days.

*Warren among friends when visiting STOCKHOLMIA 2019*

The hobby of stamp collecting started when I was about 7 years old. My father's business involved significant international correspondence and his secretary (Mary Sweeny) cut the stamps from the envelopes and my dad would bring them home after work. I became fascinated. About two blocks down the street there lived a "vest pocket" stamp dealer named Sidney Smith. By the time I was in high school I was spending winter Sunday afternoons at the Smith house, trading stamps with Mr. Smith. I also started a stamp club in Tottenville High School. The faculty adviser arranged for our club to appear on the "Captain Tom" radio show where our club competed

with another club in our knowledge of stamps. We won the competition. In my senior year, Mr. Harris, the stamp club's faculty adviser died; I gave the eulogy before the student body in the auditorium. My stamps were packed away when I went to college and stayed there until my business activities took me out of the country. On weekends with nothing to do I soon started attending outside stamp markets and stamp collecting again became an important hobby. Eventually when business took me frequently to Sweden and Denmark, I started concentrating my collection interests in those two countries.

Over the years I have learned much from my collecting interests. Here are some of my favorites:

- 1 I made a very good friend who had a condition known as Dissociative Identity Disorder who in his dying days sent me a unique mint never hinged block of four Norwegian stamps #17aa.
- 2 A stamp dealer in Holland bought a Norwegian stamp with a very unusual cancellation. He searched for ten years to find the origin of that cancel and gave up. He put the stamp up for auction and I bid it in. In time I run into a letter with a stamp cancelled in a similar manner. That stamp was posted in The Punjab! The stamp's trip to the Punjab is great history.
- 3 There is a very rare used shade of Sweden's 3 skilling banco. Facit lists it as unused only in color blue green (8-7 color intensity). I have the unused example and two examples of the used ones – one canceled Stockholm 19/6/1857 and the other Carlskrona 5/10/1855. These two used stamps are both from the last part of the first printing!
- 4 At a Skanfil Auction there was a Danish 3 skilling bi-color. It was listed as having an inverted frame. Great but it also had an inverted watermark. Unique as far as I can find.
- 5 I have a letter originating in Sweden with the leader of the Bishop Hill Commune in Illinois from Erik Jon's Son suggesting that the required money would soon be sent. Not done. The Commune went bankrupt three years later. On the cover were a 6 skilling stamp release 4 and two 24 skilling stamps release 7 - a relatively rare release.
- 6 I can go on indefinitely but I must point out that I have 12 copies of 3 skilling banco stamps with examples of all the printings, including the stamps reviewed in item 4 above. The total cost of that one page was \$21,362 when I purchased them back in the day.

Stamp collecting can be even more expensive than skiing and sailing! But something that can be done regardless of the weather and requires a different brain.

In most cases these lots are marked with a picture of a camera 📷 in front of the lot #. However, sometimes there may also be scans of lots that do not bear the sign. Please check our website for updates.

### More scans at cost

We often get requests for additional scans and sometimes in higher resolutions, sometimes for research or documentation purposes.

## Newly Discovered Correspondence

We are very happy and proud to have been entrusted more than 120 covers that have never been in the hands of any collector. The following lots (921-932) contain unique and superb items, for example a previously unknown mixed franking with a Serpentine Roulette stamp together with Coat of Arms and a beautiful 32 penni Copenhagen printing with Swedish "LÅDBREF FRÅN FINLAND" cancellation. Only two covers with this stamp are known with Swedish cancellation and this is the only one with "Lådbref" cancellation. The last lot is an interesting remainder lot with many scarce and beautiful covers.

The covers are mainly from Finland and were sent during the 1870s and 1880s to the Alströmer family (descendants of the famous Jonas Alströmer who popularized the growing of potatoes in Sweden in the 18th century), addressed to the Åkerstad mansion outside of Nyköping.

Nice to experience that genuine "finds" are still made, to the delight of stamp collectors.

## Conditions of Sale

- 1, The auction is voluntary and lots are sold on behalf of the vendor to the highest bidder. The prices indicated against each lot are starting prices and not minimum prices. It must, however, be pointed out that the starting prices should reflect a low commercial value.
- 2, All bids must be submitted in Euro to which is added 25% commission incl. Swedish V.A.T. Lots not picked up, are shipped on buyers risk. Postage, transport, insurance and bankcharges or charges on creditcard payments will be added.  
Exception: Only 20% commission, excl. Swedish V.A.T., only for
  - a. Export to countries outside of EU.
  - b. V.A.T. registered dealers inside of EU, *but outside of Sweden*, who forward their V.A.T. registration number in good time before the auction.

Lots marked • in front of the lot numbers are subject to import V.A.T. 12% will be added to the hammer price, except for a and b above. Invoicing instructions must be received before or during the auction. Invoices can not be changed afterwards.

The bids are increased as follows:

0 – 200€ 10€	1.000 – 3.000€ 100€	10.000 – 30.000€ 1.000€
200 – 500€ 20€	3.000 – 5.000€ 200€	30.000 – 100.000€ 2.000€
500 – 1.000€ 50€	5.000 – 10.000€ 500€	100.000€ – 5.000€

Bids not corresponding with these steps might be reduced.

- 3, Bids submitted are binding, and cancellation is only acceptable if received simultaneously with the bid. If bids are given on behalf of others, then the bidder is himself responsible for the fulfilment of the conditions of sale. The bidder is responsible for faulty mail bids and the same applies in misunderstandings in bids submitted by telephone, fax or through internet live-bidding. The bidder is personally responsible for any and all his purchases in the auction.
- 4, Mail bids are dealt with conscientiousness, but without further responsibility to the auctioneer. The auctioneer reserves the right to regroup, split up or withdraw lots and can in case of misunderstandings or disagreements annul the bids and restart the bidding. The auctioneer can also withhold the assignment to undesirable persons or refuse them admittance to the auction-room without explanation. In case of two equal mail bids for the same object, this will be sold to the bidder whose bid was the first received. The mail bidder can write alternative bids and/or indicate a total maximum purchase limit.
- 5, Payment is made in advance based on an advance invoice. The ownership of the objects remain with the vendor until the full invoice amount has been paid. If payment is not received 8 days from the invoice date, 2% interest per month is charged together with a fee of 10€. To this may be added additional documented expenses. Has payment not been received 30 days after the invoice date or has the buyer refused to pay, then the objects in question can, without further notification, be re-auctioned at the expense of the buyer.
- 6, Lots are conscientiously described but faults may occur. Claims must be made at the latest 10 days after receipt of the lot and full payment has been made with reference to the invoice number. If a claim is accepted, the full hammer price + commission and eventual V.A.T. is refunded. Interest compensation can not be made.
- 7, Request for extension must be made immediately and within 8 days from receipt. Certifier must be approved by the auctioneer. In case of a claim the auctioneer may demand a certificate from a well-known expert. Objects with certificates may, if the auctioneer regards it as justified, and if the original certifier is approved by the auctioneer, only be returned if two other well-known experts have certified a different opinion. Stamps with visible defects on photo (such as cuts, perforation, centering, cancellations etc.) can not be claimed. Returned objects must be in the same condition as when received. Lots of more than three stamps can not be claimed if one of the stamps has a minor defect. Large lots may contain both mint and used material. Collections and mixed lots are sold as is. A difference of approx. 10–20% must be accepted by the buyer.
- 8, Submission of verbal or mail bids means that the bidder has accepted above conditions.
- 9, Swedish law is applicable.

Catalogue numbers next to the object number is based on FACIT for Scandinavia and MICHEL for the rest of the world, if nothing else is stated.

Experten måste godkännas av auktionären. Auktionären kan vid reklamation kräva intyg från en opartisk, välkänd expert. Objekt med äkthetsintyg kan, om auktionären så anser befogat, och om det ursprungliga intyget är utfärdat av en godkänd expert, endast returneras om minst två opartiska och välkända experter har en avvikande mening. Defekter synliga på foto (klippning, tandning, centrering, stämpling etc.) kan inte ligga till grund för reklamation. Reklamation kan ej heller ske om objekt eller märke förändrats genom någon slags behandling. Objekt innehållande fler än 3 märken kan inte returneras på grund av smärre defekter på enstaka märke. Stora objekt kan innehålla både stämplade och ostämplade märken. Samlingar, partier, massvara, kilovara etc., säljes i befintligt skick och kan inte returneras.
