After view

All good things must come to an end, even this well-filled and varied auction with worldwide philatelic gems. It is now time to summarize and analyze to help us advise future consigners in the best way.

The auction and the atmosphere became just as hot as we predicted in the preface. We are especially pleased to note that the Danish market is on the move again after some years of dormancy. Nearly all of the 145 2 RBS items were sold, some at really high prices. With our future sales we also hope to attract some new collectors of classic Denmark.

We had very high expectations for the Finnish section that was unusually comprehensive with scarce quality items. The sales percentage was very high and the famous 5 kopek tête-bêche was sold to a Finnish collector in the auction room.

In recent years we have been spoiled with Swedish classic items of absolutely highest quality, and this was the case also this time. Many astute collectors have repeatedly been surprised when our catalogue has arrived in their mailbox. Therefore, we now have a mission to accomplish so that our successful Swedish exhibition collectors may continue to improve their collections. We are proud and happy that the two beautiful 3 Skilling Banco Covers were sold at good prices.

Telephone bidding is getting more and more common and this time there was almost a record participation. During the French section we were six persons with mobile connections with customers around the globe. The bidding was extremely intense, especially when the fantastic cover from Shanghai came up for sale and it went to a very happy foreign visitor in the auction room for € 20.000. "This was the most exciting five minutes during Postiljonen's history" somebody said.

Now we are preparing for our spring auctions and in particular the "Treasure Hunt #4" auction. If you have philatelic items in exceptional quality we look forward to hearing from you.

See you in **Monaco at MonacoPhil 2013** 5-7 December!
