International Auction # 216

Malmö

24-25 March 2017

*Sweden - 8 Skilling Banco
with five pre-printing folds*

“The Ultimate Accordions”

Did you know?

The appearance of this stamp might not appeal to most collectors, but it is a tremendous error. In Sweden the pre-printing folds, arising from paper sheets with folds mistakenly used in the printing process, are called “drag spel” which translates as accordions in English. They are perhaps not very rare on early Swedish issues but they are certainly unusual. However, to find five (!) “accordions” on one and the same stamp is, we dare say, extremely rare.

At our last autumn auction (# 212) we sold a pair of United States No. 1 with three ”accordions” and we would now like to challenge you to find another first issue stamp from any country which has as many ”accordions” as this 8 Skilling Banco. We believe this may prove to be a very difficult task!

Front cover:

Carl Neumann, 1833 - 1891, Danish

”After a gale at the coast of Brittany” Oil on panel, 27 x 38 cm

Preface

A lot of very strange things are going on around the world right now, and then we are not only thinking about political matters. In our geographical area we are still waiting for the meteorological winter, but it may perhaps be jumping directly from autumn to spring, which is very rare. But snow, chill and flooding in the south of Europe have among other things led to a lack of lettuce in our grocery stores resulting in higher prices and lower quality.

However, at this auction we can guarantee you that the quality is at the highest level throughout the catalogue. The Swedish section must be one of the best we have ever offered, with a huge number of excellent copies including nearly one hundred items in the highest quality grade "5, 5, 5"! The unique cover to Argentina with four different values from the first issue is one of the major rarities in Swedish philately. Supplemented by so many rarities and oddities in the lower and medium price level that we dare say we have never seen anything like it.

After two fantastic auctions with the Indriði Pálsson Collection of Classic Iceland we now offer the third and last part, including the earliest known cover with Icelandic stamps. This time the Icelandic part also includes many exclusive items from the Gold Medal Collection of Hjalti Jóhannesson. In the Danish section we are proud to present the unique block of four of 16 Skilling roulette, one of the highlights of the Christian Andersen Large Gold Medal Collection of Denmark, as well as his Slesvig 1920 collection which has rested in the estate for three decades.

The second part of The Gummesson Grand Prix d'Honneur Collection of Classic Finland is presented in a separate catalogue # 217, which we highly recommend everyone to study!

We hope that the international section is not "drowning" in this exceptional Nordic offering; it is very interesting with a lot of variety including many beautiful single items and genuine collections and lots in various price ranges, many from collectors' estates.

The biggest stamp event in Europe this year will be FINLANDIA 2017 in Tampere 24-28 May. The Postiljonen and Facit teams will be attending and we hope to meet many of our valued clients in the second largest city of Finland, hopefully in spring-like conditions.

But of course, before that we hope to see many of you in Malmö at this event!

FACIT®

As usual, Facit will also be represented in our stand and offer their catalogues for sale.

Welcome!

Mail Bidders!

We always endeavour to simulate the actual auction situation for our mail bidders, you must however beforehand have determined the maximum you wish to pay for each lot and we will ensure that this maximum is not exceeded. Your bids must be in Euro and divisible by 10. The bidding always starts with the second highest mail bid plus the next increase (see conditions of sale sect. 2). The bidding then continues between the bidders in the audience and the highest mail bidder.

Avoid missing out on every item you wanted because of higher bids from others by bidding on many items but limit your total purchase to an amount of your choice (see bid form "my total purchase must not exceed:...excl. commission"). You can for example bid for a sum of € 10 000 but limit your total purchase to € 1 000 or any amount you wish.

You can also bid on two or several items and add "or" in between. We will then make sure that you get only one of these items.

Further, according to your instructions we can for example also raise your bid on one item if it turns out that you got another item less expensive than your highest bid.

Should there be two or more equal mail bids then the first bid received will buy the lot, so please submit your bids as early as possible.

To ensure you a safe handling of your bids, we need them at least 24 hours before the auction starts.

“Postiljonen Horses”

Postiljonen has always emphasized the advantages and the importance of collecting philatelic items of the highest quality. We think this is an important step for the development of modern collecting.

To highlight, and to a certain degree reward what we think is interesting, fun, beautiful and high quality philately, we are choosing a number of items in our auction catalogues and present them with Postiljonen emblems. It should be specially noted that it is not a complete classification, you will surely find other items that would well deserve extra attention.

This choice of excellence is a subjective opinion, even if done with professional as well as philatelic skill and experience. It reflects also the emotional influence of an individual eye.

An item of outstanding quality and beauty. A rarity for its appearance and not necessarily for its value. Suitable in any collection for private enjoyment as well as for exhibition.

An item of highest excellence in regard to quality, beauty and rarity. A wonderful addition to any collection in its area.

Important Information

Unused Denmark 1851 – 1862 * & **

Through debates in various philatelic press, it has been made clear that due to the hard and insoluble gum used on early Danish stamps during the years 1851 – 1862 (Facit Nos 1-8), light hinges or traces of hinges can sometimes be removed by using only water. This might not leave any trace of the hinge and might not in any way change the consistency or structure of the original gum.

Established experts are unified in the opinion that **in many cases it is impossible to determine if a stamp has previously been hinged or not**, when showing no marks of any hinge.

The conclusion we have made regarding our descriptions from now on, for Danish unused stamps **Facit Nos 1-8, is as follows:**

1. We will no longer use the terms “NH” or “never hinged”.
2. We will still use the signs “*” for hinged stamps with original gum.
3. and “**” for stamps with original gum with no visible trace of hinge(s) and described as such.

We believe that most specialized experts also will use this “modus operandi” for these issues.

At the same time we wish to refer to the Swedish Philatelic Federation’s Expert Advisory Group (Expertrådet). It has published norms of allowed methods for light cleaning of stamps and covers. These norms have been adopted also by other Nordic Federations. Reversing of light oxidation, sometimes caused by use of modern plastic, without leaving any traces is also an allowed method accepted among national and international experts.

Plate I, Nos 59 + 60

Lot # 3 
1Iv¹+v⁵ (*)

A fantastic “pair” of the most famous unused Ferslew stamps which theoretically might have formed a pair. By studying plate I it appears that Nos 59 and 60 form a most interesting pair consisting of a substituted cliché and a stamp with the well known variety in the figure “2”. These two stamps each represent the finest of their kind: the variety is the only known flawless copy from type II and the substituted cliché is by far the finest of only three copies recorded. The two stamps match each other by colour, burelage and position of the watermark, but the distance between the stamps (width of margins) does not prove integrity. Certs Grønlund, Nielsen & Møller.

Slesvig 1920

Christian Andersen

We had the pleasure of selling the extensive exhibition collection of classic Denmark of the late Christian Andersen in two specialized auctions in October 1988 and again in October 1989. It was the best in its field, awarded numerous Large Gold Medals and was runner up more than once for the FIP Grand Prix.

Coincidentally we are now also offering one of his absolute favorite items from Denmark, the 16 skilling roulette 1863 in the unique block of four, which afterwards highlighted other collections including the Grand Prix collection of Peer Lorentzen.

His Schleswig 1920 collection was not built for exhibiting, but yet contains some very nice items and the remainder collection could form a very good base for somebody wishing to start a collection of this fascinating area. We are glad to have been entrusted this this collection, which has been resting in the estate for around 30 years.

The Indriði Pálsson Collection

Part 3

With two exceptional and very successful auctions of the Pálsson collection behind us where the room was filled with enthusiastic collectors, competing with mail bidders, auction agents, telephone bidders and dealers bidding for themselves as well as for clients, this event is now reaching its third and final stage.

The last section is not very big in terms of number of lots and therefore they are mixed into the general auction. However, they are all marked with "Ex. Pálsson", so you will easily see which ones originate from his collection. In addition to a lot of exquisite stamps and covers at various price levels one of the most highly regarded skilling covers is offered. The earliest recorded cover with Icelandic skilling stamps, leaving in March 1873 with the first mail transport to the north of the island when stamps were available.

Indriði enjoyed the excitement of competing at exhibitions and ended up with an impressive awards list, crowned in Copenhagen at HAFNIA 01 with FIP Large Gold Medal & Special Prize. He became the first Icelandic person reaching this level.

We hope that you will have the possibility to join us for this sale in person, we believe it will be as exciting and lively as the two first ones.

The First Overland Route

It is quite certain that the skilling stamps were delivered to the postal clerks in Reykjavik at the end of 1872. However, due to winter the stamps were barely used until the first regional posts left Reykjavik in the days 25th - 27th of March 1873. *This cover was carried by the first overland inland service of 1873, THE NORTHERN POST bound for Djúpivogur via Akureyri, which departed from Reykjavik on the 26th of March 1873.* Ref. to page No. 73 of "One Hundred Years of Icelandic Stamps" by Jon A. Jonsson.

Skilling Banco

P 664

Svensk Författnings-Samling No. 23. 1855. The official announcement about the introduction of the Skilling Banco stamps and the postal rates 28.3 1855. In good condition.

P 665

It is a sad mission to describe this item. In April 1856 a heavy letter was sent from Hedemora to Fahlun and somebody put on eight copies or most probably a block of eight of 3 Sk. Bco. A careless collector found it and tore them out very badly. However, by coincidentally leaving very small parts of two stamps he left us the possibility to determine that it was 3 Sk. Bco. The upper part clearly tied by the pmk and showing "3" and the lower part with parts of T & R and of course the green colour. Also the postal note "6" showing 6-fold rate = 24 Sk. Bco. An incredible historical document, but a sad, sad story for all philatelists.

Excellence 5, 5, 5

Almost 100 copies!

We are happy to once more being able to offer a fantastic selection of classic Swedish stamps in excellent condition. Most of these come from a collector who during many years has been scouting for the best quality available. Some years ago we sold over several auctions a great number of such quality stamps under the headline "Luxury of Sweden". We would like to repeat what we said in one of the introductory texts after offering so many copies quality graded 5, 5, 5:

"We are actually getting worried that many of you start to think that this high grade of quality is not really very rare. This thought might especially strike relatively new collectors.

Our advice is; please look at other auctions, and also if you still have our auction catalogues from a few years back. You will soon realize that in most auctions you may be happy to find a few classic stamps rated 5, 5, 5.

The sale of the "Luxury of Sweden" is a very special occasion!

This was back in 2013 in our auction # 203 and since then the offers of 5, 5, 5 have been quite limited in our auctions as well as in others.

Finally, here's another great opportunity to obtain some!

Lion Type

The Birger Möller Collection

The following twenty lots (835-854) represent a specialized collection of the Lying Lion type built up during a long period of time. The collection, formed by Mr. Birger Möller, author, national economist and former member of the Swedish Parliament, includes many rare items such as proofs and essays for the issue as well as the two postal announcements for these stamps. The individual items were acquired during a period of about twenty years, from the early 1970s up to the early 1990s with the intention of exhibiting. Due to lack of time however the collection was never exhibited and the items are now offered after having been off the market for several decades.

A fantastic collection used 1855-1967 on a large number of album pages. Specialized with a lot of shades, cancellations incl. many superb and foreign ones, varieties like set-offs, plate flaws etc., multiples and other specialities. Conditions of Sale

- 1, The auction is voluntary and lots are sold on behalf of the vendor to the highest bidder. The prices indicated against each lot are starting prices and not minimum prices. It must, however, be pointed out that the starting prices should reflect a low commercial value.
- 2, All bids must be submitted in Euro to which is added 25% commission incl. Swedish V.A.T. Lots not picked up, are shipped on buyers risk. Postage, transport, insurance and bankcharges or charges on creditcard payments will be added.
Exception: Only 20% commission, excl. Swedish V.A.T., only for
a. Export to countries outside of EU.
b. V.A.T. registered dealers inside of EU, *but outside of Sweden*, who forward their V.A.T. registration number in good time before the auction.
- Lots marked • in front of the lot numbers are subject to import V.A.T. 12% will be added to the hammer price, except for a and b above. Invoicing instructions must be received before or during the auction. Invoices can not be changed afterwards.
- The bids are increased as follows: Below Euro 500,- Euro 10,-
500,-2000,- 50,-
above 2000,- ca 5%
- Bids not corresponding with these steps might be reduced.
- 3, Bids submitted are binding, and cancellation is only acceptable if received simultaneously with the bid. If bids are given on behalf of others, then the bidder is himself responsible for the fulfilment of the conditions of sale. The bidder is responsible for faulty mail bids and the same applies in misunderstandings in bids submitted by telephone or fax. The bidder is personally responsible for any and all his purchases in the auction.
- 4, Mail bids are dealt with conscientiousness, but without further responsibility to the auctioneer. The auctioneer reserves the right to regroup, split up or withdraw lots and can in case of misunderstandings or disagreements annul the bids and restart the bidding. The auctioneer can also withhold the assignment to undesirable persons or refuse them admittance to the auction-room without explanation. In case of two equal mail bids for the same object, this will be sold to the bidder whose bid was the first received. The mail bidder can write alternative bids and/or indicate a total maximum purchase limit.
- 5, Payment is made in advance based on an advance invoice. The ownership of the objects remain with the vendor until the full invoice amount has been paid. If payment is not received 8 days from the invoice date, 2% interest per month is charged together with a fee of Euro 10,-. To this may be added additional documented expenses. Has payment not been received 30 days after the invoice date or has the buyer refused to pay, then the objects in question can, without further notification, be re-auctioned at the expense of the buyer.
- 6, Lots are conscientiously described but faults may occur. Claims must be made at the latest 10 days after receipt of the lot and full payment has been made with reference to the invoice number. If a claim is accepted, the full hammer price + commission and eventual V.A.T. is refunded. Interest compensation can not be made.
- 7, Request for extension must be made immediately and within 8 days from receipt. Certifier must be approved by the auctioneer. In case of a claim the auctioneer may demand a certificate from a well-known expert. Objects with certificates may, if the auctioneer regards it as justified, and if the original certifier is approved by the auctioneer, only be returned if two other well-known experts have certified a different opinion. Stamps with visible defects on photo (such as cuts, perforation, centering, cancellations etc.) can not be claimed. Returned objects must be in the same condition as when received. Lots of more than three stamps can not be claimed if one of the stamps has a minor defect. Large lots may contain both mint and used material. Collections and mixed lots are sold as is. A difference of approx. 10–20% must be accepted by the buyer.
- 8, Submission of verbal or mail bids means that the bidder has accepted above conditions.
- 9, Swedish law is applicable.

Catalogue numbers next to the object number is based on FACIT for Scandinavia and MICHEL for the rest of the world, if nothing else is stated.

Han förbehåller sig rätten att vid missförstånd eller meningsskiljaktigheter utlysa ny budgivning. 8. Objekten är omsorgsfullt beskrivna, dock kan smärre fel förekomma. Ev. reklamation måste göras senast 10 dagar efter det att objektet levereras. Vid all korrespondens bör fakturanummer anges. Vid godkänd reklamation återfår köparen auktionspris plus provision och eventuell moms. Räntegottgörelse kan ej påräknas.
9. Begäran om förlängd reklamationstid för att köparen önskar sända objekt för expertundersökning, måste ske omgående och inom 8 dagar efter mottagandet av objekten. Experten måste godkänna av auktionären. Auktionären kan vid reklamation kräva intyg från en opartisk, välkänd expert. Objekt med äkthetsintyg kan, om auktionären så anser befogat, och om det ursprungliga intyget är utfärdat av en godkänd expert, endast returneras om minst två opartiska och välkända experter har en avvikande mening. Defekter synliga på foto (klippning, tandning, centreringsfel, stämpling etc.) kan inte ligga till grund för reklamation. Reklamation kan ej heller ske om objekt eller märke förändrats genom någon slags behandling. Objekt innehållande fler än 3 märken kan inte returneras på grund av smärre defekter på enskilda märke. Stora objekt kan innehålla både stämpelade och ostämpelade märken. Samlingar, partier, massvara, kilovara etc., säljs i befintligt skick och kan inte returneras.
