*International Auction # 228*

*25-26 September 2020*

Position 5 with imperforate & reperforated margins. "Before and after".

## *Did you know?*

The first three printings of Pakke-Porto stamps of 1905 were printed in sheets of 25 with line perforation on all four sides and with more than 0,5 cm selvedge margin, however the following printings of 5 and 10 øre were printed in sheets with narrow imperforate margins, and this was also the case for the next issue of 1915, first printings (1, 2, 15 and 20 øre).

The introduction of Pakke-Porto stamps unexpectedly became a good business for the KGH (The Royal Greenland Trade Office) in Copenhagen. Due to collector demand the KGH decided to reperforate the margins of the remaining holdings of sheets with imperforate margins, as collectors did not like the stamps with imperforate margins.

As the holdings of sheets for certain values were very limited, great rarities occurred, e.g. 5 øre 1910 (2nd printing) only 25 sheets were reperforated, for this reason e.g. a reperforated stamp position No. 1 exists in only 25 copies! You can look up the scarcity of the individual printings in the Facit catalogue.

Today, on the contrary, the stamps from this period are strongly sought after by specialized collectors who often collect stamps from the corners, imperforate as well as reperforated and also from top, bottom and from left and right sides of the sheet.

## Preface

On the 18th of March 2020 we announced to our customers and consigners that we unfortunately had to postpone our spring auction from the beginning of April until mid-May due to the corona pandemic. Since then nothing has been the same for any of us no matter where we live or in which business you are active. The auction went very well given the circumstances and afterwards we were very glad that we made that decision, which also all parties involved fully understood and appreciated.

Therefore we are very pleased with the contents of this auction. Several long-time clients of ours have entrusted us with their collections, or important parts of them. The first one coming up is the "Dog Sleigh Mail" from Greenland just followed by the outstanding "The Norseman Collection" of Pakke-Porto, including the new find 5 øre, unique with a large imperforate margin at bottom. In the Norwegian section we are proud to offer the unique proof set of the Memory issue for Eidsvold 1914, the only Norwegian issue engraved by the K. K. Austrian Works in Vienna.

The first auction day ends with the non-Scandinavian countries including "Around the World in 80 Collections", from countries A to V and almost from every corner of the world. From the most exotic places and colonies to more "common" countries like Belgium and the United States. Even if you do not collect any of those areas, we recommend you to take a "trip around the world". Perhaps you will find an interesting country or area with an extensive base that will not be too difficult to complete and improve.

We are also very happy to present the exhibition collection "Early Mail and Stampless Letter Postal Markings of Sweden" formed during a lifetime by our dear friend Alan Warren RDP FRPSL. This is followed by the extensive collection of Coat of Arms 12 øre, also consigned by a good old customer of ours. In a separate catalogue #229 you will find the last and 7th part of the Gummesson Grand Prix d'Honneur Collection, with unsold items as well as many others that have been saved for last. Previously unsold items are now offered at very attractive starting prices.

Also "our own" exhibition **Nordia 2020** in Malmö has been postponed from early September until 4-6 **December**. We are now keeping our fingers crossed that it will become a reality and that we will meet many of you there.

Best regards and stay healthy!

## "Postiljonen Horses"

Postiljonen has always emphasized the advantages and the importance of collecting philatelic items of the highest quality. We think this is an important step for the development of modern collecting.

To highlight, and to a certain degree reward what we think is interesting, fun, beautiful and high quality philately, we are choosing a number of items in our auction catalogues and present them with Postiljonen emblems. It should be specially noted that it is not a complete classification, you will surely find other items that would well deserve extra attention.

This choice of excellence is a subjective opinion, even if done with professional as well as philatelic skill and experience. It reflects also the emotional influence of an individual eye.

An item of outstanding quality and beauty. A rarity for its appearance and not necessarily for its value. Suitable in any collection for private enjoyment as well as for exhibition.

An item of highest excellence in regard to quality, beauty and rarity. A wonderful addition to any collection in its area.

## *In Memoriam*

*Svein Arne Hansen PHM*

*Svein Arne enjoyed coming to our auctions and he quickly "adopted" Malmö as one of his many "second home cities". He only missed a few auctions, in later years when they collided with important missions in his capacity as President of the European Athletic Federation. We were very happy for his participation, especially as he could make the whole auction room laugh, not only once or twice; on several occasions we all laughed through the whole sequence of Norwegian lots. There were many times during the years when I thanked him for "the Hansen show".*

*He was such a dear and close friend for so many years making it difficult to realize that he will not be around anymore. I was very touched by the words a mutual British friend wrote to me about him "....a larger than life character". So true!*

*Claes Arrrup & all at the Postiljonen Team*

*Svein Arne in his stand at VÅST 78 in Gothenburg.  
His stamp company "Klassisk Filateli" was  
established around this time.*

*Visiting Postiljonen's stand with  
Danish colleague Finn Nielsen.*

*He always spread joy around him,  
only seconds from a joke.*

*Being a professional philatelist did not stop him, as an  
astute collector, from building the greatest ever collection  
of incoming mail to Norway for which he was awarded  
multiple Gold Medals at international exhibitions.*

*During all this time he was also heavily involved in the organizing  
of the Bislett Games in athletics. He soon became the head of this  
and later for the organization arranging the large European  
athletics events. It all laid the ground for his great career within  
athletics that ultimately lead all the way to the Presidency of  
the European Athletics Association.*

*Rest in peace, dear friend*

## Mail Bidders!

We always endeavour to simulate the actual auction situation for our mail bidders, you must however beforehand have determined the maximum you wish to pay for each lot and we will ensure that this maximum is not exceeded. Your bids must be in Euro and divisible by 10. The bidding always starts with the second highest mail bid plus the next increase (see conditions of sale sect. 2). The bidding then continues between the bidders in the audience and the highest mail bidder.

Avoid missing out on every item you wanted because of higher bids from others by bidding on many items but limit your total purchase to an amount of your choice (see bid form "my total purchase must not exceed:...excl. commission"). You can for example bid for a sum of € 10 000 but limit your total purchase to € 1 000 or any amount you wish.

You can also bid on two or several items and add "or" in between. We will then make sure that you get only one of these items.

Further, according to your instructions we can for example also raise your bid on one item if it turns out that you got another item less expensive than your highest bid.

Should there be two or more equal mail bids then the first bid received will buy the lot, so please submit your bids as early as possible.

**To ensure you a safe handling of your bids, we need them at least 24 hours before the auction starts.**

# Around the World in 80 Collections

At this auction we are happy to present collections from almost every corner of the world, some very extensive country collections as well as some highly specialized ones. To a large extent the collections start with the first issues and stop around the 1940s or the 1950s. They have been put together and developed for many decades by a few very eager collectors in our Nordic hemisphere, who coincidentally decided to sell at this moment. A common denominator is that they have been rather quality minded and trying to avoid "cheap space fillers".

The result is that this auction is filled with important country collections as well as some spanning over wider areas. Hopefully there should be something for everybody's taste. Most of them would be excellent starting points for collectors, who would like a good possibility to complete a collection.

All the collections are found under their respective countries or areas in different parts of this catalogue. The starting prices have been set conservatively to give some room for bidding, hopefully making this auction an interesting and exciting event. It is our estimation that most starting prices are around the level of 1/10 of the Michel catalogue value and in some cases probably much lower.

The quality is generally very high and there are also some exquisite specialized early collections. Careful inspection is recommended, however as many of our clients might be limiting their travelling, we have tried to scan the absolute majority of the collections and in many cases all pages. You will find the scans in our web catalogue, where it will be mentioned at the end of each description in red, either "Entire lot scanned" or "Part of lot scanned".

Happy hunting!

## Extra scans on the web!

For every auction we publish thousands of extra scans on our website [www.postiljonen.com](http://www.postiljonen.com) including more or less all certificates of single items and a very large number of collections and lots are scanned in their entirety, further many others with selected pages/scans.

In most cases these lots are marked with a picture of a camera 📷 in front of the lot #. However, sometimes there may also be scans of lots that do not bear the sign. Please check our website for updates.

### More scans at cost

We often get requests for additional scans and sometimes in higher resolutions, sometimes for research or documentation purposes.

Due to time restrictions and limited availability of the lots due to ongoing viewings, we must restrict this service of making further scans on individual requests. In the cases time allows us to supply more scans we will charge for the costs of **€ 10 for each request (maximum 10 scans or photos)**

If more than 10 scans are requested, € 1 per scan will be added. **Must be paid beforehand by credit card, please go to "Payments" on our website.**

Please have a look at:

**[www.postiljonen.com](http://www.postiljonen.com)**

## *Important Information*

### Unused Denmark 1851 – 1862 \* & \*\*

Through debates in various philatelic press, it has been made clear that due to the hard and insoluble gum used on early Danish stamps during the years 1851 – 1862 (Facit Nos 1-8), light hinges or traces of hinges can sometimes be removed by using only water. This might not leave any trace of the hinge and might not in any way change the consistency or structure of the original gum.

Established experts are unified in the opinion that **in many cases it is impossible to determine if a stamp has previously been hinged or not**, when showing no marks of any hinge.

The conclusion we have made regarding our descriptions from now on, for Danish unused stamps **Facit Nos 1-8, is as follows:**

1. **We will no longer use the terms "NH" or "never hinged".**
2. **We will still use the signs "\*" for hinged stamps with original gum.**
3. **and "\*\*\*" for stamps with original gum with no visible trace of hinge(s) and described as such.**

We believe that most specialized experts also will use this "modus operandi" for these issues.

At the same time we wish to refer to the Swedish Philatelic Federation's Expert Advisory Group (Expertrådet). It has published norms of allowed methods for light cleaning of stamps and covers. These norms have been adopted also by other Nordic Federations. Reversing of light oxidation, sometimes caused by use of modern plastic, without leaving any traces is also an allowed method accepted among national and international experts.

This remarkable cover is well matched with its history.

It has been part of many of the most important collections in modern times and if we would try to calculate the number of Large Gold Medal occasions it has been presented at, it would surely be closer to 20 than to 10.

We are happy and proud to have been involved earlier when this cover has changed hands. Actually two of the gentlemen below have sold it through us and two of them have bought it at our auctions.

Another little detail, which is pleasant for us, is that John Jacob Engellau was also the first ever winner of our challenge trophy "The Silver Postiljon" in 1977, which is nowadays awarded to the winner of the Championship Class at NORDIA exhibitions.

## Postal History

### Dog Sleigh Mail

The following 12 lots are from a specialized collection of mail forwarded by dog sleigh, formed by a collector in Germany during a period of many years. During the winter Greenland's coastline was covered by ice making it impossible to travel by sea. Therefore all domestic transports, including mail, were transported by dog sleigh. The collection shows examples of covers sent during the winter and thereby transported over the ice by this method. Lot # 140 contains items with the stamps issued in 1945 with a dog sleigh motif. More items of this stamp under lot # 283 - 286.

## “The Norsemen Collection” of PAKKE-PORTO

It is with great pleasure we can once again present an outstanding collection Greenland, specialized in only the Parcel Post stamps “PAKKE-PORTO” 1905 – 1937.

The collection has been built and developed during a 20 year period by a collector with the intention to exhibit, which for various reasons did not happen. With its rich spectrum of varieties, printings, plate positions and not least with the extensive variety of parcel envelopes and cards, the collection surely had the potential to reach the highest levels in competition.

Not being based in Scandinavia, the collector has to a large extent used the internet for the acquisitions through auction houses, dealers and private sellers from all over the world, including of course from Denmark and Scandinavia, but also as far away as Australia. This has led to some amazing acquisitions of never or rarely seen items.

Especially interesting to point out is the spectacular “New Find”, hitherto unknown and not referred to in any literature. The 5 øre 1905 in the first printing imperforate at bottom with the full large sheet margin. Not only unique, but also the only such partly imperforate stamp of the 1905 issue.

When looking through the items, it will be obvious to anyone that the collector was very astute and quality minded, putting a high priority on getting exquisite stamps and rare as well as beautiful postal history items.

The main part of the collection is offered here and a second part will be offered next year.

Please enjoy!

123-25P

The Memory issue for Eidsvold 1914 is the only Norwegian issue engraved by the K. K. Austrian Printing Works. After the war in 1918 they had limited space for their archive and therefore decided to reduce it. All proof sheets were cut down into smaller blocks or part sheets which contain the printer's notations. All the surplus was destroyed. Thus these three blocks of 20 of 5, 10 & 20 øre in black in the final design are the only ones existing as far as we know. The printer's archive was sold privately and through various auctions from 2004 to 2014. Signed in the margins by R. R. Hesse, who was controller and head of plate production. The stamps were printed by Norges Bank in Kristiania (Oslo).

# Around the World in 80 Collections

At this auction we are happy to present collections from almost every corner of the world, some very extensive country collections as well as some highly specialized ones. To a large extent the collections start with the first issues and stop around the 1940s or the 1950s. They have been put together and developed for many decades by a few very eager collectors in our Nordic hemisphere, who coincidentally decided to sell at this moment. A common denominator is that they have been rather quality minded and trying to avoid “cheap space fillers”.

The result is that this auction is filled with important country collections as well as some spanning over wider areas. Hopefully there should be something for everybody’s taste. Most of them would be excellent starting points for collectors, who would like a good possibility to complete a collection.

All the collections are found under their respective countries or areas in different parts of this catalogue. The starting prices have been set conservatively to give some room for bidding, hopefully making this auction an interesting and exciting event. It is our estimation that most starting prices are around the level of 1/10 of the Michel catalogue value and in some cases probably much lower.

The quality is generally very high and there are also some exquisite specialized early collections. Careful inspection is recommended, however as many of our clients might be limiting their travelling, we have tried to scan the absolute majority of the collections and in many cases all pages. You will find the scans in our web catalogue, where it will be mentioned at the end of each description in red, either “Entire lot scanned” or “Part of lot scanned”.

Happy hunting!

# Greta Garbo Correspondence

Lot # 908 

Collection of 36 letters mainly in Swedish to her close friend Countess Märtha (Hörke) Wachtmeister at Tistad gård. Most letters written in the 1930s and 1940s but also one sent to Märtha's daughter Gunilla Bussler (married Bernadotte) as late as 1976. The letters are mostly unsigned but one signed "The Clown" and two signed with sketches of female figures. 26 of the letters are still in their covers, mainly with American frankings and Californian postmarks, some with the stamps cut out. All neatly presented in a beautiful box.

The letters are very personal and reveals constant homesickness, loneliness and her desire to escape from the film industry and her own stardom but also interesting lines about her work in Hollywood.

## Including Private Photographs

Included in the collection is an album with 111 amateur photos (including some duplicates), taken at Tistad gård in the 1930s showing Garbo enjoying the escape from fame together with the Wachtmeister family in outdoor activities such as skiing, sunbathing and playing with animals.

## Conditions of Sale

- 1, The auction is voluntary and lots are sold on behalf of the vendor to the highest bidder. The prices indicated against each lot are starting prices and not minimum prices. It must, however, be pointed out that the starting prices should reflect a low commercial value.
- 2, All bids must be submitted in Euro to which is added 25% commission incl. Swedish V.A.T. Lots not picked up, are shipped on buyers risk. Postage, transport, insurance and bankcharges or charges on creditcard payments will be added.  
Exception: Only 20% commission, excl. Swedish V.A.T., only for
  - a. Export to countries outside of EU.
  - b. V.A.T. registered dealers inside of EU, *but outside of Sweden*, who forward their V.A.T. registration number in good time before the auction.

Lots marked • in front of the lot numbers are subject to import V.A.T. 12% will be added to the hammer price, except for a and b above. Invoicing instructions must be received before or during the auction. Invoices can not be changed afterwards.

The bids are increased as follows:

0 – 200€ 10€	1.000 – 3.000€ 100€	10.000 – 30.000€ 1.000€
200 – 500€ 20€	3.000 – 5.000€ 200€	30.000 – 100.000€ 2.000€
500 – 1.000€ 50€	5.000 – 10.000€ 500€	100.000€ – 5.000€

Bids not corresponding with these steps might be reduced.

- 3, Bids submitted are binding, and cancellation is only acceptable if received simultaneously with the bid. If bids are given on behalf of others, then the bidder is himself responsible for the fulfilment of the conditions of sale. The bidder is responsible for faulty mail bids and the same applies in misunderstandings in bids submitted by telephone, fax or through internet live-bidding. The bidder is personally responsible for any and all his purchases in the auction.
- 4, Mail bids are dealt with conscientiousness, but without further responsibility to the auctioneer. The auctioneer reserves the right to regroup, split up or withdraw lots and can in case of misunderstandings or disagreements annul the bids and restart the bidding. The auctioneer can also withhold the assignment to undesirable persons or refuse them admittance to the auction-room without explanation. In case of two equal mail bids for the same object, this will be sold to the bidder whose bid was the first received. The mail bidder can write alternative bids and/or indicate a total maximum purchase limit.
- 5, Payment is made in advance based on an advance invoice. The ownership of the objects remain with the vendor until the full invoice amount has been paid. If payment is not received 8 days from the invoice date, 2% interest per month is charged together with a fee of 10€. To this may be added additional documented expenses. Has payment not been received 30 days after the invoice date or has the buyer refused to pay, then the objects in question can, without further notification, be re-auctioned at the expense of the buyer.
- 6, Lots are conscientiously described but faults may occur. Claims must be made at the latest 10 days after receipt of the lot and full payment has been made with reference to the invoice number. If a claim is accepted, the full hammer price + commission and eventual V.A.T. is refunded. Interest compensation can not be made.
- 7, Request for extension must be made immediately and within 8 days from receipt. Certifier must be approved by the auctioneer. In case of a claim the auctioneer may demand a certificate from a well-known expert. Objects with certificates may, if the auctioneer regards it as justified, and if the original certifier is approved by the auctioneer, only be returned if two other well-known experts have certified a different opinion. Stamps with visible defects on photo (such as cuts, perforation, centering, cancellations etc.) can not be claimed. Returned objects must be in the same condition as when received. Lots of more than three stamps can not be claimed if one of the stamps has a minor defect. Large lots may contain both mint and used material. Collections and mixed lots are sold as is. A difference of approx. 10–20% must be accepted by the buyer.
- 8, Submission of verbal or mail bids means that the bidder has accepted above conditions.
