After view

Without going into details, it is difficult not to mention the very strange current circumstances around the world which are affecting everyone. We must be honest and confess that we were a bit concerned about how it would influence the auction result. But fortunately, we can once again confirm that the stamp business is not particularly affected by difficult times. On the contrary, stamp collectors seem to view their collecting as a relaxing safe haven.

During the first auction day we noticed nothing of the global turmoil at all. China is still hot and as usual there were many bids in the book for this section, as well as active live bidders, contributing to several interesting results. But what really stood out was Finland with very intense interest and bidding. That market is strong, which is probably a result of our earlier seven Gummesson auctions. A Finnish friend of us also told us that our viewing during their national exhibition in September might be a reason for the outcome.

The Friday session was dedicated to Denmark and areas, but with Swedish collections & mixed lots ending the day. We knew that the DWI section was interesting and that we have serious collectors for this area, but it turned out even better than expected. Maybe two record prices (# 764 & 779)? Followed by some amazing covers (# 780, 782 & 789).

Now we are preparing for our participation at two exhibitions this autumn: the national **NorrPhil 2022**, 4-6 November, and the prestigious **MonacoPhil 2022**, 24-26 November, in which we have participated since the very beginning in the late 1990s. There we will promote our spring auction, and your consigned items, to come.

Please try to save electricity; why not light a candle instead together with your dearest ones and/or your stamp collection?
